

Virtual sensitive revolutionizes the tactile world

Find out our concept and enter the circle !

coconote® , an innovative technology

Designed and build by our own team , Coconote® is a circular table whose characteristics are at leading edge of tactile technology: embedded full HD projector with leds, more than 100 touch points simultaneously for a multi user and multi applications use
Each Coconote® comes in standard with Collao® operating system and its cocktail of applications.

- Equal access to the information whatever the position of the user.
- Easy sharing of document between the users.
- Very efficient team working.
- Creativity and user friendliness guaranteed.

High 95 cm, weight 50 kg, screen diam 76 cm/30 Inches, high resolution 1080 p and 1200 p, more than 100 touchpoints simultaneously, high reactivity (latence < 10 ms), multi-user and multi-applications simultaneously.

Embedded computer : Intel i7 3,3 GHz, 8 Gb RAM, grafic card NVIDIA GTX 650, projector high fidelity (colorimetry respected), high brightness german made(Eyevis).

For more characteristics, see the datasheet available on demand by e-mail or via our website : www.virtualsensitive.com

collao®, a completely new operating system

Collao® is a patented operating system, exclusively developed for Coconote®. It allows several users to work simultaneously on separate applications or to work all together on a single application.

collao

- Collao® manages up to six individual round windows. With a single finger these windows can enlarge without overlapping the others.
- Collao® allows easy sharing of files between the different windows.
- Furthermore, Collao® allows co-working on a full screen common application.
- Collao® displays information on equally way to each user whatever his position around the table (no more matter with up and down direction, large and small side).
- Collao® works with any operating system (Linux, Windows, Mac) in a transparent way.
- Collao® comes with any Coconote® and only Coconotes®.

configo®, an ideal configuration tool

Configo® has been specially and exclusively designed for configuration of Coconote® display. It is on-line accessible from any computer, tablet or smartphone and allows you to customise your applications to meet your needs: display environment, choice of applications and multimedia documents , customisation of maps , quiz questions....

The logo for 'configo' features a stylized blue robot head with large eyes and antennae, positioned between the 'i' and 'n' of the word 'configo'.

- **Intuitive** : only few minutes are sufficient to understand how it works
- **Reactive**: when connected to the web, a Coconote® asks regularly to its Configo® if there is any updated configuration available. If yes, this new configuration will be installed automatically
- **Powerful**: screen modifications, graphics, additional applications, modification of contents: video, photo, pdf. 3D models...
- Furthermore Configo®, is an administration tool:
 - turn on and turn of hours,
 - administration of groups of tables with similar or different configurations,
 - previous configurations back up,
 - activity thread: connections, disconnections.....

a cocktail of applications

Numerous applications are already available in our catalogue and are delivered with each Coconote®. In addition we custom make applications. Your licence Collao® gives you access to any new or updated application

- **Informative** applications : pdf, images, vidéos, 3D models.....
- **Recreational** applications : aquarium, stars and other games
- **Educational** applications : puzzle, quizz, drawing...
- **Collaborative** applications
- **On demand** applications according to your specification

coconote®, unlimited uses in many sectors

Coconote® will undoubtedly appeal to you if you are: an events professional, tourism officer, scenographer or museum manager, designer of public places, entertainment park manager, industrial company manager, marketing manager, teacher or training or research centre director, designer architect... and much more!.
